

The Child Care Inclusion Program provides support to families and child care facilities to include children with diverse needs in child care programs.

The program includes the following principles

- Families require child care services that meet their needs.
- Child care facilities need support to respond to the child care needs of families of children with diverse needs.
- Every child should have the opportunity to be included in a program that is developmentally appropriate for that child.
- Early provision of support services and program planning contributes to the optimum development of the child.
- Children benefit if families, child care professionals, schools and supporting professionals work as a team.
- Parents have the right and the responsibility to be involved in the development of programming for their child.

Inclusion funding is available to child care centres and licensed child care homes that are providing child care services for a child with diverse needs.

The following grants are available:

 - **Level 2** \$250/month
Support and consultation needed and short term or intermittent additional staffing needed; additional caregiving time of up to one hour per day or five hours per week on average; may mean rescheduling, rearranging or increasing staff, or reducing group size

Requests are made to the Early Learning and Child Care Consultant. Approval to transfer the equipment is based on the following considerations:
